UNESCO MGIEP - Transforming Education for Humanity

UNESCO MGIEP focuses on achieving the UN Sustainable Development Goal 4.7 towards education for building peaceful and sustainable societies across the world by developing programmes that promote social and emotional learning, innovate digital pedagogies and empower the youth.

“Theory of Transformation” by Spirit in Action.

Reform — Working **within** the System to shift it from within.

Resistance — Direct Action against the System. Drawing the Line.

Reimagine — What are New ways of doing things?

Recreate — What are the Social Institutions to get us where we imagine?

The idea is to move forward on the Values of Equality, Peace and Justice for All.

— It is important that people have the space to build these alternative models.

“I Beg to Differ with the Darwinian Theory - Manly P. Hall” by the duderinok2, 7-5-13

Scientific Materialism — where science seeks to have all the power.

And yet, Religion is compounding the problem by seeking to add its voice.

What no one seems willing to say is that both the religious and the scientific theories are **HYPOTHESES. Neither is able to fully support their theory.**

SAND — Science and Non-Duality

“In his talk, *A Great Leap in Being*, evolutionary cosmologist Brian Swimme suggests that the same power that built galaxies is waking up through us. We are not flesh and bone looking at the galaxy, we are the galaxy observing itself. We are not lava turned to life, we are planetary mind "screaming to come forth." The planetary mind is latent in us, he suggests, and "SAND is a node on the planet for the activation of planetary mind." Wherever we gather to share in truth-telling and deep listening, grief and

celebration, wherever we avail our hearts to the Mystery, there the Latent within us can emerge. Whatever the contractions that we are experiencing now as spiritual beings and as a species, we can trust them, they are no less that the planetary mind birthing itself—God taking off Her drag.”

What is the greater intelligence that is within every cell of our beings.

If we’re going to invoke brilliance, forget what you think you know.

We are made of the elements.
